

After-School Chinese Language Fall 2019

Dear Parents of The Preschool Place & Kindergarten,

This is the 9th school year that I am offering this program at The Preschool Place and Kindergarten. Last year, we had a successful school year exploring the Chinese world in language and culture with the children. I am inviting your kids to join me in this new school year!

Why learn Chinese? According to surveys, the top reason is **"To be equipped for future opportunities!"** Familiarity with Chinese gives your child a powerful tool for the fast-growing Global village. The most widely-spoken language on the planet, **Mandarin Chinese** is one of the principal languages of the future.

My name is Cynthia Yu. I am a native Chinese speaker who holds a BA degree, New Jersey teacher certification and has almost 20 years of teaching experience. I have been teaching Chinese for the past many years in preschools, Chinese language schools & public-school afterschool enrichment programs.

This Enrichment program will lead your child to explore Mandarin Chinese and have fun experiencing the fascinating culture. With carefully designed and child-friendly curriculum will utilize games, songs, stories, books, art & crafts to teach young children from non-Mandarin/Chinese speaking families.

The 2019 Fall session will be held on TUESDAYS starting on October 29. It will run 12 sessions. We will offer a 45-minute lesson from 2:30pm to 3:15pm. If you're interested in joining us, please fill out the attached application form and hand it in to the school. If you have any questions, please contact the school or e-mail me at kidstalkinternational@yahoo.com

Fee: \$13.50 per lesson (45minutes lesson. \$160 for Fall Session -12 lessons) Make check Payable to "Cynthia Yu" –Thank you!
